**THE POLITICALLY CORRECT SCRAPBOOKS!**

John and Laura Midgley

The Original and The Second Politically Correct Scrapbooks are different collections of humorous material on Political Correctness. They each contain some of the most ridiculous examples of PC ever known (including many examples which have been very kindly provided by supporters of the Campaign Against Political Correctness) along with PC spoofs, funny sketches, crazy Health & Safety stories and lots of ridiculous warning signs.

The books are colourfully illustrated throughout and are a must buy for anyone who is fed up with Political Correctness and has a sense of humour!

**These Scrapbooks make great presents and are suitable for all ages - current readers range from 12 to 95 years of age!**
